

Instructions for Running Python Script

To run the Python script `Assign3.py`, follow these steps:

1. Open a terminal or command prompt.
2. Navigate to the directory containing `Assign3.py`.
3. Run the following command:

```
python Assign3.py
```
4. After running the script, you will be prompted to enter the x, y, and z coordinates one by one.

The prompt will look like this:

Enter x coordinate:

After entering the x coordinate, press Enter. Then you will see:

Enter y coordinate:

Enter the y coordinate and press Enter. Finally, you will see:

Enter z coordinate:

Enter the z coordinate and press Enter to complete the input process.
